

ANGEL DANIEL BECERRA GARCIA

NETWORK INFRASTRUCTURE ENGINEER |
AUTOMATION & VDI SPECIALIST

PROFESSIONAL PROFILE

Engineer specialized in the convergence of network infrastructure and software development. I excel in designing high-availability virtualized environments and automating business processes. My focus is on creating end-to-end solutions ("Full-Stack Infrastructure"), ranging from hardware and routing configuration to the deployment of APIs and orchestrated web platforms to maximize operational efficiency and security.

TECHNICAL SKILLS (STACK)

- Virtualization & VDI: Proxmox VE (KVM/LXC), Apache Guacamole (Clientless RDP), LVM/RAID storage management, Thin Clients.
- Development & Automation: Python (FastAPI, Streamlit, Requests), Java (OOP), n8n (Workflows), Bash Scripting, REST API consumption and creation.
- Web & E-commerce: WordPress, WooCommerce, Elementor, B2B system integration.
- Networking & OS: Cisco IOS, MikroTik (RouterOS), OSPF Routing, NAT/PAT, ACLs, VRRP/CARP. Linux Server Administration (Ubuntu, Debian, Mint) and SQLite.

FEATURED PROJECTS

Project Lead | Uniprox (Educational VDI Platform)

- End-to-End development and implementation of a Virtual Desktop Infrastructure (VDI) platform to isolate student laboratory environments.
- Programmed a Python backend (FastAPI) to orchestrate the automatic creation and cloning of virtual machines by consuming the native Proxmox API.
- Integrated perimeter security using Apache Guacamole for browser-based RDP connections, managing tunnels and temporary tokens through a Streamlit web frontend.

SOFT SKILLS

- **Architectural Vision:** Ability to see the entire ecosystem, from the physical switch port to the user's web interface.
- **Agile Troubleshooting:** Rapid diagnosis of failures in multi-tier architectures (Network, Server, Backend, Database).
- **Self-Directed Learning:** Fast adoption of new coding and orchestration tools to solve real-world operational problems.

EDUCATION

Universidad Tecnológica de Tijuana (UTT) | Tijuana, B.C.

Associate Degree (TSU) in Digital Network Infrastructure (In Progress)

- Currently in the 5th quarter.

LANGUAGES

- **English:** Intermediate (B1) - Technical comprehension.
- **Spanish:** Native.
